Spare parts

A standard package of spare parts is supplied with number and description. When using spare parts, we recommend you order new spare parts immediately, to prevent delays in use.

Since 01-01-2020 new ordering numbers are used by RR Mechtronics for all spare parts and consumables. The new ordering numbers are the part numbers, preceded with an "S" e.g. "LORC079200" must be ordered as "SLORC079200". Only articles starting with "QRR" remain unchanged.
